

Benefit Poker Run for Ayden Jolicoeur Saturday, August 14, 2010

In May 2010, four-year-old Ayden Jolicoeur was diagnosed with a rare and aggressive form of cancer called “Anaplastic Astrocytoma” (Stage 4). Doctors recommended that Ayden receive a costly form of treatment known as proton therapy as well as chemotherapy.

Ayden’s family needs your help. The aggregate cost of Ayden’s medical treatment and travel expenses is expected to be exorbitant. Your donations can help ease the pain of a family who has already suffered a significant amount of emotional distress.
